Chairman Powell:

I appreciate the opportunity to express my views about violence on television. I am a grandmother of an eight and four year old. My daughter was recently going through some of my mother's things after her death. Included in her personal things are photograph's of my husband's vehicle after a drunk driver hit him head-on nearly 18 years ago, pictures I have chosen never to see. Three people were killed in that wreck, including my husband. Both of my grandchildren were present at the time my daughter was going through my mother's things and caught only a glimpse of their grandfather's truck. Since that time, they have both dreamed of the horror that that picture has planted in their little minds and talk incessantly about it.

Both my daughter and her husband as well as myself are careful about what their little minds and eyes are exposed to. But even on "Nick at Night" and TV Land, we still have to contend with public service announcements about two men using condoms to cut down on the exposure to aids and regular commercials pushing tampons and viagra, something I thankfully never had to contend with when I was growing up. Just because information is out there is no indication that young children must be exposed to it.

Please do something about violence on television. We all may have a "right to know," but that does not mean that we all want to know. For a change, let those who want this type of entertainment have to search for it far away from the reach of little ones, instead of the burden being placed on those of us who desire some good old-fashioned, values-filled television having to be the ones to search such entertainment out, only to find very little of it remainings on our airwaves. Thank you.

Sincerely,

Penny McKinney-Smith

Chairman Powell:

I want to go on record as opposing violent TV programs and movies. I don't want my child (he is 2) growing up with images in his head of bloody gunfights and violent murders. Those images are hard to erase from impressionable minds, and I don't want them influencing his future decisions and views. Even programs that have been edited for TV still have images that I don't feel are suitable to be shown in prime time while children could be viewing them. Parental control is a strong deterrent in our home, but many children have free access to TV and total control over the shows that they watch. I would like to see more wholesome programming dealing with families, such as "Seventh Heaven," or family sitcoms without all the innuendos, sexual references, and biting cutdowns.

Thank you for the chance to express my views. I don't watch much TV at all anymore, because I don't feel there is anything worth my time. I don't want violent images in my mind, either. My son has videos I let him watch during his allotted TV times, and we watch "Sesame Street" on PBS during breakfast. The only prime time program I make a point to watch is "Seventh Heaven," and I like HGTV shows when I have a free moment to sit down. My husband watches "24" but he secludes himself upstairs to watch it while our son is up. That cuts into our time as a family, so he limits his TV viewing, also.

Again, thank you for the opportunity to express how we feel about the standard of TV shows.

Sincerely,

Chris Bowman

Commissioner Adelstein:

i am writing to let you know that I think the violenc on television is out of hand. I have to turn my eyes, as well as hide my children's eye. Please bring sanity back to the set. Less violence and less sex. We are becoming hardened as a country. We need less. Thank you for listening.

Sincerely,

Patty Miller

Commissioner Abernathy:

Dear Sirs;  
Thank you for asking my opinion on TV Violence.  
Watching TV these days is a risky business for my family. I strongly urge you to reduce and limit the graphic display of violence on TV. I, as well as, many of my friends have discussed this situation and are frustrated by these shows and even more so by the commercials that they show. Filters and parental supervision are necessary but when these graphicly violent shows then advertise through TV commercials, its like a surprise attack on my family. I strongly urge you, as representative of the families of the USA to strongly limit this type of TV programming and advertising.

Sincerely,

Laurene Rosen
